PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IP1a (DIA). The photographic analysis for this particular report was performed by the Production Center IP1a.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (I) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Arkhangelsk Army Barracks Isakogorka, consisting of 2 walled and fenced installations, is located on the southern outskirts of Isakogorka, 10 kilometers (km) south of Arkhangelsk (Figure 1).

The facility covers approximately 250 acres and contains 2 multistory administration buildings, 13 multistory barracks, 27 utility structures, and approximately 130 dependents housing units. Two motor pools contain a total of 29 vehicular and 11 utility buildings (Figures 2 and 3).

A small training area located 8 km south-

west of the barracks area (not on graphics) consists of a tank range with 3 tank runs and moving targets at a maximum range of 1,500 meters, a possible APC range south of the tank range, and a probable tracked-vehicle driver-training course north of the range. The range administrative area, located 200 meters north of the firing points, contains 1 administration building, 3 support structures, and 2 range control buildings.

[redacted] missions covered the installation between [redacted]

No significant changes were noted.
